

ASHISH PRAJAPATI

Data Scientist

+91-7037764252 aknexa@gmail.com linkedin.com/in/ashish-prajapati28 github.com/ashishpra28

Summary

Data Science professional specializing in Data Analysis, ML, Generative AI, and Agentic RAG systems, skilled in Python and LangChain/LangGraph

Skills

Languages & Core: Python, SQL

AI/ML: Machine Learning, Deep Learning, NLP, Generative AI, Agentic AI, RAG, LangChain, LangGraph

Tools & Deployment: Git, GitHub, Docker, FastAPI, MySQL, VS Code, Jupyter Notebook

Soft Skills: Technical Training, Communication, Mentoring

Experience

Generative AI Trainer

March 2026 – Present

ACTE Technologies

- Deliver hands-on training on Generative AI, LLMs, RAG to **7+ learners** across cohorts.
- Mentor learners through coding exercises and real-world AI projects, resolving technical doubts and improving hands-on proficiency.
- Design curriculum modules covering GenAI components, agentic workflows, and applied GenAI use cases.

Data Analyst

January 2026 – June 2026

Tech Field Pvt Ltd

- Cleaned and preprocessed datasets using Python and Pandas, improving data quality for downstream analysis.
- Performed exploratory data analysis (EDA) to uncover trends and prepare analysis-ready datasets for stakeholder reporting.

Projects

FraudShield: Bank Fraud Detection System | *GitHub, Demo*

- Built a real-time bank fraud detection system using Machine Learning from **6.36 million+ transaction-level data**.
- Developed and deployed a production-ready application using FastAPI, Streamlit, Docker, and Render.
- Engineered the ML pipeline (feature engineering, model training, evaluation) to support real-time inference.
- *Tech Stack: Python, Scikit-learn, XGBoost, Pandas, FastAPI, Streamlit, Docker, Render*

ClassTick: AI-Powered RAG System for Education | *GitHub*

- Built a Retrieval-Augmented Generation (RAG) system for an AI-first education platform, enabling accurate, context-grounded question/answers from study content.
- Implemented a chatbot for query support and FAISS vector store.
- *Tech Stack: Python, LangChain, LangGraph, FAISS, Streamlit, Groq*

ResearchPilot: Research AI Agent | *GitHub, Demo*

- Designed an AI-powered research assistant that performs web research, gathers evidence, generates structured reports, and refines them automatically.
- Implemented web search, content extraction, report review, and revision workflows.
- *Tech Stack: Python, LangChain, Groq, Tavily API, Streamlit*

Certifications

- **Data Analyst Internship Certificate:** Specialized in data cleaning, preprocessing, exploratory data analysis (EDA), and Python (Pandas) through 6 months of hands-on analyst work.
- **Complete Generative AI Course with LangChain:** Specialized in building GenAI applications using LangChain, Hugging Face models, and LLM-based pipelines through hands-on projects.
- **Complete Data Science, Machine Learning, Deep Learning & NLP Bootcamp:** Specialized in Python, Machine Learning, Deep Learning, and NLP through hands-on, real-world projects under Krish Naik's guidance.

Education

Bachelor of Computer Application (BCA)

June 2022 – December 2025
